Dear Mr. Maley,

It has been four months since we came online with AeroTrac™ and I just wanted to commend you and your staff for your superb support and commitment to customer satisfaction.

I could not believe how effortless it was to get our repair station on your MRO Program nor could we believe how you have fully incorporated Quality, Materials, Finance, Work Orders, and Shipping & Receiving into the same module at a fair price.

We at Southwest Airmotive, Corp™ look forward to a long working relation with TracWare. Again from all of us at Southwest thank you very much.

Best regards,

Dwight A. Cox  
President  
Southwest Airmotive, Corp™
